Total membership 68 including 4 jr memberships for 2024

Full amounts available from the treasure on request

Correspondence

- MAAC president video, info from MAAC on disciplinary actions

Field Report

- Field is in great Flying condition

Old Business

- As there seems to be ongoing issues with the gate being closed and the lock scrambled Darren J will put reminder signs on the gate UPDATE Darren has created and posted the sign **CLOSED**
- 2025 is the 30th anniversary of the club it was brought up that some form of celebration be held such as a BBQ and perhaps a prize draw of some type it was generally accepted that this is a good idea and further discussion should be held UPDATE it was suggested perhaps we could put a float in the farmers days parade as well **PENDING**
- The executive was made aware that there are again some loud aircraft being flown at the field. As we have had noise complaints in the past the executive will find the levels that were set previously for noise limits and if required will implement testing on the area designed for testing in the pits. Remember failure to comply with club rules and regulations may result in the removal of flying privileges and possible revocation of club membership UPDATE previous club noise level restrictions are still being investigated **PENDING**

New Business

- A new first aid kit is required Sherman will provide one **CLOSED**
- Fire extinguishers require recertification/filling Dave G will do this **PENDING**
- Ed K needs additional pamphlets Darren J will print some out and get them to Ed **PENDING**
- Due to the recent charging station fire pails of sand will be placed at the charging station to be applied to burning batteries Mike M will bring some pails **PENDING**
- There was discussion around the gas start up station it was determined it will stay where it is as its location was moved there for safety and improved inter-pilot communication at the flight line **CLOSED**
- There was much discussion around Jet flying at our field with points for and against as well as several suggestions around how the issue could be resolved there was no determination made so the discussion was tabled **PENDING**
- There was an issue where a new pilot was being instructed and the instructor asked to have the field for a few minutes to assist the beginner a members were asked not to fly one member did so with a result of a midair. Dave G will send a reminder about common sense and courtesy and flight line protocol **PENDING**

Next meeting will be November 5th at 7:30pm in the PERC building,
50/50 won by Chris J
Meeting Adjourned at 09:01 pm
